

The Heights Primary School

Year One Parent Planner: Spring 2 Week 1

Dear Parents/Carers

This term our theme is: **Space**

This week we will be:

English	This week in English we will be introducing our book 'Here come the aliens!' We will be using our book as a focus over the next few weeks. This week we will be focussing on describing the aliens using adjectives and writing compound sentences.
Mathematics	In Maths we will be introducing division with practical resources. We will then use the division symbol to write some simple division number sentences. On Friday we will be independently solving division problems with the skills we have learnt.
Topic	In Science this week we will be starting our own science experiment. In Design and Technology we will be using our designs of our planets to create a papier mache 3D planet. In Art we will be learning how to make an observational drawing of a plant.

Maths at home - As we know how supportive you are as parents, we would really appreciate it if you could find opportunities to practise counting to and back from 0-100 with your children. It would also be useful for children to practise writing numbers from 0-100.

We hope you all had a restful half term.

Thank you,

Miss P-F and Miss Hiles
