

The Heights Primary School

Key Stage Two Parent Planner: Spring 2 Week 4

Dear Parents/Carers,

This term our theme is: **Detectives**

This week we will be:

English	Having made some predictions about a mystery book last week, we will begin reading the story 'Stig of the Dump' by Clive King this week. We will focus on how the author chooses words to describe setting and characters. We will also look at different ways of improving sentences.
Mathematics	This week we will be focussing on fractions. We will learn how to count in halves and quarters and order fractions on a number line. We will learn how to find simple fractions of numbers using division. We will also be comparing fractions using a fraction wall and will find fractions with a total of 1.
Science Week	This week is Science Week! The theme this year is 'Change'. Every afternoon this week we will be transforming into scientists and we will be completing a range of exciting science activities. We will be making predictions, carrying out science experiments and drawing conclusions about what we have learnt!

Science week request: Do you have any empty clear jam jars with lids? Please can we borrow them for a science experiment on Thursday? Thank you!

Don't forget to buy your red nose as we will be joining in with Comic Relief on Friday 24th March. They are available at the office for £1.

Please remember to bring **recorders** again this Wednesday.

Best wishes,

Mrs Sanigar and Mrs Wells
