

The Heights Primary School

Key Stage Two Parent Planner: Summer 2 Week 4

Dear Parents/Carers,

This term our theme is: **Super Structures**

This week we will be:

English	This week we will continue learning about persuasion. We will be replying to the letter from Mrs Edwards trying to persuade her not to cancel all school trips! We will look at how we can use persuasive language and also how to set out a letter.
Mathematics	We will be looking at how to scale up and down this week using strategies such as halving and halving again to divide by four, and doubling and doubling again to multiply by 4. We will also begin to look at division outside times tables.
Topic	This week we will be looking at the world's longest bridges and the children will be challenged to build their own strong bridges based on the structures they have seen! We will also be starting to build our wind turbine models.

Please ask your child about their **DT project** this week. Last week they made a list of some of the resources they will need to build their turbines and this week we will start to make them. We have some resources at school, but your child will need to find some boxes, tubes, straws etc for their own design. We are grateful for your support with this.

Please remember to bring recorders on **Wednesday!**

Don't forget that **Sports Day** is this **Friday!** Please come along to support us!

Our end of year trip to the **Earth Trust** is on **Monday 3rd July**. We would like to remind parents to return the Offsite Visit Permission Form and that a voluntary contribution of **£22** is recommended for this trip. Payment can be made via **ParentPay**. Thank you!

Best wishes,

Mrs Sanigar and Mrs Wells
