

The Heights Primary School

Year One Parent Planner: Summer 2 Week 3

Dear Parents/Carers

This term our theme is: **Amazing Animals**

This week we will be:

English	This week we will be focussing on our story writing skills. We will be reading stories and searching for good story language, exciting words and perfect punctuation. We will then use the things we've seen to create our own animal stories. We will create story maps and later in the week we will begin to write our own stories.
Mathematics	In Maths we will be learning more about weight and mass. On Friday we will be doing some more exciting problem solving.
Topic	In Science we will be completing some data collection (cross curricular with Maths) about the human body. We will be using the Scratch Jr App in Computing to further develop our coding skills further. In History we will be finding out about Steve Backshall. We will also continue to create our animal habitats in design and technology and will use plasticene to create a model of our chosen animal.

Hot Weather - It's due to be another scorching week, so please can we remind you to apply sun screen to your children and send in a sun hat and water bottle every day.

Maths at home - Please could everyone practise their number bonds to ten and then to twenty. We need the children to recall them with speed. It would also be useful for children to practise their subtraction facts for ten and twenty too. E.g. $10 - 6 = 4$ and $20 - 15 = 5$

Thank you,

Miss P-F and Miss Hiles
