Please support your child by practising the sounds in their phonics book, their blending cards and helping them to explore and read their school reading book every day for 5-10 minutes using the guide in their Reading communication diary.

You can also help your child with their learning this week by..... *create and solve addition and subtraction problems related to everyday life.*

Parent and child challenge for the term!

Can you help your child to ... find ways to melt an ice cube. Test how long it takes to melt in a dish indoors. Then find some ways to make it melt faster. Can your child think of a way to record the results? Please do send in/email some photos of your child's ideas and their results. Have fun!

If you have any questions about how to help your child with their learning please see your child's teacher. If you would like to become more involved in school life please see the PTFA website: and/or speak to your child's teacher about when/how we can accommodate you. We are always looking at ways to include our parent's in school life.

Best wishes
