

The Heights Primary School

Reception Parent Planner: Spring 1 Week 6

Dear Parents/Carers

This term our theme is: **Journeys (Space)** This week our theme is: **"Whatever Next"**

Our sounds/words this week are **/air/ear/** Tricky words: **some, come**

Our numbers this week are: **20-100 (or more)**

This week we will be covering the following in our seven areas of learning:

Communication and Language	Orally sequence and retell the story "Whatever Next". Make up our own oral stories based on the "man in the moon" book. Speak in role in the indoor and outdoor role-play areas
Personal Social and Emotional Development	Continue to discuss being like "Eddy the Independent Eagle". Review our personal goals set in week one. How are we progressing? Have we achieved them?
Physical Development	Multi-skills PE session. Dough Disco and Finger Gym, Wednesday afternoon - physical activities challenges
Literacy	Write in role-play using writing frames provided. Guided reading. Finish our space journey story started last week based on structure of "Whatever Next" changing ideas to make it our own.
Mathematics	Investigate doubling. Introduce as twins needing the same as each other - need double of everything...
Expressive Arts and Design	Further space art work as suggested in child initiated planning. Plan and make Junk model rockets with friends.
Understanding the World	IT: Mash Cam insert your photo so you are the astronaut and write a sentence about where you are going What do you wonder about space? Record your question on a bubble and help the class research the answer

Please support your child by practising the sounds in their phonics book, their blending cards and helping them to explore and read their school reading book every day for 5-10 minutes using the guide in their Reading communication diary.

You can also help your child with their learning this week by..... *encouraging them to think of their own questions about space "What do you wonder about space?". See if you can find the answer eg. From book, internet etc. Bring it to school and share your new learning with us.*

Parent and child challenge for the term!

Can you help your child to ... find ways to melt an ice cube. Test how long it takes to melt in a dish indoors. Then find some ways to make it melt faster. Can your child think of a way to record the results? Please do send in/email some photos of your child's ideas and their results. Have fun!

If you have any questions about how to help your child with their learning please see your child's teacher. If you would like to become more involved in school life please see the PTFA website: and/or speak to your child's teacher about when/how we can accommodate you. We are always looking at ways to include our parent's in school life.

Best wishes

The Reception Team
