

## The Heights Primary School Year 4 Parent Planner: Spring 2 Week 4

Dear Parents/Carers

Hope you had a lovely weekend, we have another really busy week this week so here goes ...

**Monday** – The children will launch Science week with a science assembly followed by Science activities.

**Tuesday** – We will be out at the football festival at Emmer Green School all morning. Children need to come to school in their P.E. kit with school uniform in a bag to change into later. Please could the children bring a water bottle to school on Tuesday.

**Wednesday** – Science week activities continue.

**Thursday** – The children have some First Aid training in the afternoon.

**Friday** – Science week ends with a celebration assembly.

English	The children will be debating whether The Heights PTA should buy a mini bus for the school. They will then complete some independent writing on a genre of their choice as part of their 'Big Write.'
Maths	This week the children will revise measures and then complete their measures assessment.
Topic	As part of science week, Mrs Thomas' class will be investigating the amount of plastic in fleece tops that are made in part from recycled plastic. The children will consider the impact that this has on the environment and debate whether plastics should be recycled and used in fleeces.  Miss Reynold's class will be investigating how far a sneeze travels and will be investigating static electricity.  Both classes will also continue their learning on sound. They will investigate how distance affects sound and how string telephones work. They will then write an explanation of a string telephone.

Thank you for your continued support,

Mrs Thomas and Miss Reynolds
